

Map Direct Lite What's New

V6.190809

New feature in the Add Data tool that makes finding data from agencies other than FDEP much quicker.

Click "Expand Filter" to change the source filter immediately to "All Data Sources", which also performs the search again at the same time, usually providing additional results.

Then click "Narrow Filter" to change back to showing only results from FDEP, which is the default data source filter.

The screenshot shows the 'Add More Data to the Map' interface. At the top, there are navigation buttons: 'Add REST Endpoint Layer', 'Add Shapefile', 'Add ArcGIS Online Item', 'Add Storm Imagery', and 'Add Layers by Division'. Below these is a search bar containing 'sea grass' and a 'Need Help Searching?' link. A red box highlights the filter dropdown menu, which is currently set to 'Show Only Items From Florida Department of Environmental Protection'. To the right of the filter are buttons for 'All Content Types', '1 by Relevance to Search Criteria', and 'Compact View'. A red arrow points to the 'Expand Filter' link. Below the search bar, there are two search results. The first is 'Johnsons Seagrass Range' with a thumbnail map, a description, and an 'Add to Map' button. The second is 'Johnsons Seagrass Critical Habitat' with a similar layout. Red text annotations include 'Current Filter' pointing to the filter dropdown, and 'Click to expand filter to include all data sources' pointing to the 'Expand Filter' link.

The screenshot shows the 'Add More Data to the Map' interface after clicking 'Expand Filter'. The search bar still contains 'sea grass'. The filter dropdown menu is now set to 'Show Items From All Data Sources'. A red arrow points to the 'Expand Filter' link, with red text saying 'Now searching all data sources'. Below the search bar, there are two search results. The first is 'Open Data - Permitting/Regulatory, USACE PGP V-R1 Permit Review (for SJRWMD use)' with a thumbnail map, a description, and an 'Add to Map' button. The second is 'Seagrass Habitat' with a similar layout. Red text annotations include 'Click to search only FDEP data' pointing to the 'Narrow Filter' link, and 'Results now include data from FWC, SJRWMD, etc' pointing to the search results.

Map Direct Lite What's New

Many layers that FDEP used to host for Map Direct are now coming directly from the Open Data sources of other agencies, which means they no longer show up in the initial search results in the Add Data tool, since the results are initially filtered to show only layers from FDEP.

Now, if you do a search and don't find the layer you are looking for, you can just click "Expand Filter" to see if the data is available from other agencies. You can then quickly switch back to just FDEP data by clicking "Narrow Filter".

Previously, you had to click the filter button, then choose the alternate source filter. This procedure is not immediately obvious to users not familiar with the source filter tool, so the new "Expand/Narrow Filter" button will hopefully make it easier to find data from other agencies.

Map Direct Lite What's New

v6.190408

The Draw tool now displays measurements for the shapes that are drawn whenever the shape is drawn or selected.

Polygons display area in acres, square miles and square meters. They also display perimeter in feet, miles and meters.

Lines display length in feet, miles and meters.

Points display latitude/longitude coordinates in Decimal Degrees and Degree-Minute-Second formats.

Multi-Points display the same coordinate information for each constituent point.

Map Direct Lite What's New

v6.190320

“Contact Us” link on the Help Dialog now rendered as a standard link instead of a button. This should help keep pop up blockers from blocking the “mailto” link that opens in a new tab to create a “contact us” email. Contact Us emails now sent to the GIS_Librarian Group at GIS.Librarian@dep.state.fl.us.

Map Direct Lite What's New

v6.190319

- “What’s New” document link added to the Map Direct Help tool. The document shows details of recent and upcoming updates to Map Direct.

The screenshot displays the Map Direct Lite interface. At the top, a map of Louisiana is visible with a toolbar containing icons for navigation, printing, and sharing. A red box highlights a question mark icon in the toolbar, with a red arrow pointing to it. Below the map is a blue header bar labeled "Help and Contact". The main content area features the Florida Department of Environmental Protection logo and the text "Florida Department of Environmental Protection". To the right, it says "Map Direct Lite v6.190319". A link for "More Information about Environmental Resource Permitting (ERP) Map" is provided. Below this, a section titled "Click links below to open help documents." contains a list of links. The first link, "What's New? [PDF]", is highlighted with a red box and a red arrow pointing to it. Other links include "Quick Start Guide [PDF]", "Guide to Navigation [PDF]", "Guide to Searching [PDF]", "Guide to Search Results [PDF]", "Guide to Map Layers [PDF]", "Guide to Sharing & Printing [PDF]", "Guide to the Area of Interest Report [PDF]", and "Guide to Drawing [PDF]".
